- Total giving in the United States last year exceeded **\$557 billion**.
- While this is a 1.9% increase in current dollars, **inflation-adjusted** giving actually decreased by 2.1% from 2023.
- **Individuals** continue to serve as the highest source of giving – *more than double* the giving from foundations, bequests and corporations combined.
- The top recipient organization types are **religion, human services, and education**.
